Dance, Ambient, World fusion and World beat 10 MP3 Songs ELECTRONIC: Ambient, WORLD: World Fusion Details: Im a NYC based deejay who as of late has started concentrating mostly on producing music for movies, commercials and remixing for artists. I have been very much interested in music since my childhood and have been mixing and remixing music for last 12 years. It all started as a hobby and with time it became so enjoyable that I decided to take it to the next level. Memento is my first original album that I have recorded and produced. I have used variety of off the shelf as well as my own sampling to produce the tracks for the album. Track 10 is my tribute to the late Persian poet Nima Youshij. The voice on this track is of the late Persian poet Shamloo. The poem brings attention to the peoples indifference to all the suffering that is prevalent in the world. With so much pain suffering in the world, I try, even if is only for a few minutes, to bring joy and happiness to my audience and help them to celebrate and appreciate this very moment. Thanks for checking the album out and make sure you let me know what you think about the tracks and if you have any favorites.
