ROCK: Acoustic, EASY LISTENING: Background Music Details: Like Water Falls is the second CD from the acoustic guitars of Duology. Ten new tracks of original instrumental guitar music by Joseph Brunelle Barry Coggins, Like Water Falls is a contemporary finger-style treat for the ears. The arrangements are brilliantly thought out but executed in straight-forward live performances. The album took a year to write and record and is the much anticipated follow-up to their first self-titled 2003 release which included the NPR All Songs Considered/Open Mic award winning track Rammed Earth. The sound is rich in texture with melodies and harmonies weaving together in surprising and thoughtful ways. Like Water Falls pure audio presentation is complimented by beautiful nature photography from South Carolina based Doug Lockard and Nashville designer/award winning songwriter Kathy Hussey. Like Water Falls was recorded and mastered in Nashville, Tennessee by Tim Grogan and Rod Lewis at the state of the art facility, Studio 515. Visit duologymusic.to to learn more and see photos.
