Straight out of NEW ORLEANS, my rap style consists of raw mindboggling lyrics with an unpredictable flow that completes me. 19 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Hardcore Rap Details: Listening to all kinds of music, help me to focus on what type of style I'll use. I feel I'll add all types of aspects to the rap game. Such as one that would have people glued to the radio amazed at what i'm saying. The game without me is like flavorless food no one enjoys. My goal, as a rapper, is to take the commercialism out and add vocal skills to the game. I started rapping at the age of eight and was quickly recognized as a rapper. But as years went by I slacked away. People told me I could be a great rapper if I applied myself. So I decided to start writing and really focus on my lyrics. Knowing what I wanted to do I trained my lungs, mind, and spirit to be the best and I will not fail. Later I signed with a local record company (DIAMOND KEY PRODUCTIONS,L.L.C.) and started on my first album title (TAKE IT OR LEAVE IT).
