R B, Blues 10 MP3 Songs BLUES: Delta Style, BLUES: Rhythm Blues Details: Gerome Durham is a Mississippi native and former club owner. I sang at his club, Brothers 2, many times. Gerome traveled with me to Detroit, Michigan, Fort Wayne, Indiana, and Minneapolis, Minnesota. Gerome has long wanted to pursue a singing career. He told me, "Johnny, when I retire off my job, I want you to record me and book me." He said, "you have produced lots of people, but ol'Gerome is going to make you some money." With Gerome's desire to sing, this project began to fulfill his dreams to become a soul R B star. Once he was in the studio, he found out that recording isn't an easy job. It is hard work. But he hung in there until the job was done; until the CD was finished. This is just the beginning of Gerome's singing career. he is a R B soul singer, singing all original songs written by himself and Johnny Rawls. I found working with Gerome to be easy-going. He was willing to learn and I was surprised how easy he would catch the songs-being the first time in a studio to do his CD. Here it is!! So, to the world and all radio stations across the nation, I present to you for the first time, ol' Gerome (Johnny Rawls)
