Upbeat, engaging, acoustic rock..., animated acoustic guitar w/ violin, piano, percussion. Inspired lyrics. 8 MP3 Songs ROCK: Acoustic, ROCK: Modern Rock Details: Ira Caplan...inspired, evocative and real...has released his debut CD, Behind the Shadows, a diverse and determined array of songs that catapults the listener through the chasm between heart and mind. With elevated content, and excellent production, this CD fuels the inner drives of the self-aware, and inspires the disenchanting. Ira's songwriting is soothing and engaging, zeroing in on the most evasive sentiments of today's society. Emanating his outlook of persevering optimism, Ira interprets and unravels the inner realities that many sense, but few decipher. Melody lines in "Behind the Shadows" and "The Boy Inside" captivate the listener with presence and power, while the lyrics of "In the Hills" lead his audience into realms of wonder. The album's instrumentation also entreats praise. The musical execution of all the players is unerring. Violin solos electrify the individual tracks with emotion and intensity, and stealthy acoustic strumming patterns bring together the piano, synthesizer and percussion to only accentuate this songwriter's performance. Ira's music leaves an indelible mark, drawing his audiences back again and again to the very core of the Well-spring, and leaving a lasting impression of what you might call 'home'.
