

## Mp3 Merrill Collins - We Declare!

[DOWNLOAD HERE](#)

Instrumental world music soundtrack for songs, chants, dances, and multi-media projects based on "Towards a Global Ethic: an Initial Declaration" text 13 MP3 Songs WORLD: World Fusion, KIDS/FAMILY: General Children's Music Details: We Declare! is an instrumental soundtrack for songs, chants, dances, and multi-media projects based on the text of the document, "Towards a Global Ethic: An Initial Declaration". This Declaration was written by Dr. Professor Hans Kung (for more info, weltethos.org) for the Council for a Parliament of the World's Religions' conference in Chicago 1993. (for more info, cpwr.org) I composed these pieces with the intention of bringing these ideas (what all the religions hold in common as agreements) to an accessible level of cultural expression. The pieces were performed at the CPWR conference in Capetown, South Africa in 1999, and these works were commended as "Gifts of Service to the World". The pieces work well as performances in school assemblies, community inter-cultural gatherings, and have often been featured at events hosted by interfaith groups. Parents and teachers find this material ideal for teaching values. Activities directors and event planners for corporations will find these pieces both entertaining and culturally vitalizing. The instrumental CD features the Spiralingua Ensemble: Merrill Collins, keyboards and bells, Pope Flynnne, African Drums, Chris Ray Collins, dijiro-do, drums, Jeff Dunn, marimba, Joseph Hebert, cello, Charles Moselle, shakahachi and bansuri flutes. The We Declare! Audio CD also correlates to the songbook, We Declare!, e-book and hard copies available through Spiraling Music. This is a colorful book, illustrated with photographs by Yvon Chausseblanche of world percussion instruments and notes about world sounds. Full instructions on the projects, lyrics, scores, and educational materials designed for all age groups is available at [spiralingmusic.com](http://spiralingmusic.com)
