You have a powerful ability to convey the emotions, the feelings of the songs." "Your singing and your compositions are, to me, one and the same. And by that I mean they are so naked, true, sincere, natural, unaffected, and beautiful, that at times I feel like I'm eaves dropping on you. This honesty is what music was originally based on, and what it needs today." "Such a beautiful thing you have made; so honest, so heartfelt, and clear. Thank you. Bless you." "At the first note my breath draws in, my heart stops. I sit on the edge of my bed - coffee and oatmeal growing cold and forgotten - as I sit transfixed by sound and words. The music ...warm, full of love, tears, and beauty....."
