Ambient, space music meant to soothe your nerves. 10 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Chill out Details: Notes on the CD High Drift This is a compilation of several ambient tracks which flow nicely one to the next. The CD starts strongly with an attention-grabbing piece titled "Europa" which settles into a trance-like state that leads into a series of soft, ambient pieces to soothe your mind. About an hour later I re-awaken you to a short closing piece titled "Anxious Moment" that brings you back to real life! I do hope you enjoy this CD. Comments are always welcome. BIO The computer age was born while I was in graduate school and I began to experiment with various music-related software. During this time my music tastes drifted away from popular music to more subdued tones. I began listening to radio programs like 'Hearts of Space' and 'Echoes' which featured artists off the mainstream. Nothing substantial emerged from my software experiments until I started using Sound Forge and Acid Pro. My music is enjoyed by listeners who enjoy ambient and techno-jazz music. One of my songs 'Oceanic' received first place in an electronic music competition and released on a compilation CD. People who are interested in Steve Roach Jonn Serrie should consider this download.
