Pop/Folk with Ambient Twists 7 MP3 Songs POP: Folkly Pop, ROCK: Roots Rock Details: Shannon Weir solo album "Nature About You" is a fine blend of pop/rock and ambient undertones. Shannon 's solo CD was released in 2001, and recorded at MetalWorks Studio with Producer Iain McNally and Engineer L. Stu Young. 'Nature About You" is a high quality recording that gives Shannon's fans a tangible concept of her natural ability as a singer and pianist. It also shows her songwriting skills as they have matured since her release in 1999. Both "Ghosts of My Past" and "Nature About You" act as a showcase for Shannon's haunting voice, and continuing musical evolution. Most of Shannon's musical inspirations have been deeply embedded in the 40-something songs that she has written to date. She has developed a heightened awareness and understanding of human nature and spirit that is captured in each performance and recording - a comprehension that was shared by many as her song "A Meeting" was selected as a finalist from thousands of bands from around the world in a \$1,000,000 recording contest on amp3sponsored by Fender. Shannon's website (shannonweir.com) has generated a great response all around the globe and continues to be her best marketing tool as an INDIE artist. Nowadays Shannon fronts her band "The Even Strangers" with a new force of songs, released on Zuniorin 2005. Go to zunioror shannonweirfor more details about Shannon Weir The Even Strangers.
