Diverse CD fusing, Rock, Classical, Celtic, Spanish, and Latin styles, featuring classical guitar with percussion, woodwinds, brass, bass, electric guitar. 9 MP3 Songs NEW AGE: New Age, WORLD: World Fusion Details: WHO AM I? Although I received my degree in classical guitar, I just could not make that necessary connection with the music to be a successful classical artist. Each semester I was required to prepare myself to perform before the string faculty. Instead of preparing for the performance, I would sit in the practice room and attempt to write melodies for the guitar. That brings us to the present. I'm now a married father of twin boys with a dog and a cat, living in middle class suburbia. The desire I had 20 yrs. ago to write beautiful music still burns within me. Hence, REFUGE! The CD is very diverse, reflecting a life's worth of emotions and experiences. If you are reading this bio - thanks for visiting. If you purchase the CD - thanks even more! Let me know what you think. I hope you will enjoy listening to it, as much as I enjoyed creating it! Don't be a stranger! Best Wishes, Steve. p.s. A word of advice -- if you're planning a recording, hook up with great musicians like I did. I hope you'll get to know Scott, Scottie, Chuck, Randy and Dennis through the music!
