the beckoning's unusually accurate take on universal human emotions gives life to this raw yet atmospheric album, creating a place for listeners to dwell with the silence of their own experiences. 11 MP3 Songs ROCK: Acoustic, POP: Folkly Pop Details: An urban myth crediting an old hotel as home to a brothel hosted by Al Capone, gives substance to rumors of ghosts among the city of Saint Paul. Further haunting the soil are the remnants of a broken love. What other place shall our hero begin, than at the feet of the haunting? Gentle murmurs move to mournful confessions freely through an ethereal realm of ghosts and heartache. A voice, captivatingly broken, unveiled through its honesty, ransoms the silence for a moment of ecstasy, while it releases the starving prisoners of a crippled heart. Lilydale Road, the debut album from the beckoning, follows a young man through a sparsely produced tapestry of honesty and raw emotion, drawn from tales of youthfulness, obsession, lost love, and the journey home. Recorded in the shadows of the old hotel, in random bathrooms, stairwells and apartments, Jared (singer/songwriter for the beckoning) has taken his acoustic beginnings and turned them into a hypnotic collage of enchanting melodies, eerie harmonies, and wistfully poignant lyrics that create more than a truly original album, but a story that will surely enamor as it unfolds. It's fitting that this humble, down-to-earth musician who produced, mixed and mastered many of the tracks on his own, would release this album as an entity, rather than as a solo artist. Though it is Jared's unusually accurate take on universal human emotions that gives life to this raw yet atmospheric album, the beckoning is not about the individual artist, who he is, where he is from, and where he is going. For Jared, it is about creating a place for listeners to dwell with the silence of their own experiences. Musically, the beckonings' captivating combination of instrumentals and vocals is as unrivaled as it is uncommon. Lilydale Road smoothly weaves classic guitar, piano, and cello instrumentals with unusual electronic textures and musical appearances by

flugelhorns, Velcro, and plastic bags. The resulting album offers listeners a mesmerizing and dramatic glimpse into the sometimes depressing but always powerful world of heartbreak and lost innocence. We have all known these feelings, but few have been able to express them so beautifully and, above all, so honestly.
