

Exploratory Data Analysis Using Fisher Information

[DOWNLOAD HERE](#)

1;Table of Contents ;5 2;Contributor Details;7 3;1 Introduction to Fisher Information: Its Origin, Uses, and Predictions ;14 3.1;1.1. Mathematical Tools;16 3.1.1;1.1.1. Partial Derivatives;16 3.1.2;1.1.2. Euler-Lagrange Equations;17 3.1.2.1;1.1.2.1. Extremum Problem;17 3.1.2.2;1.1.2.2. Solution;17 3.1.2.3;1.1.2.3. Nature of Extremum;18 3.1.2.4;1.1.2.4. Building in Constraints;18 3.1.2.5;1.1.2.5. Example: MFI Lagrangian;19 3.1.3;1.1.3. Dirac Delta Function;19 3.1.4;1.1.4. Unitary Transformation;20 3.2;1.2. A Tutorial on Fisher Information;21 3.2.1;1.2.1. Definition and Basic Properties;21 3.2.1.1;1.2.1.1. Comparison with Shannon Information;21 3.2.1.2;1.2.1.2. System Input-Output Law;22 3.2.1.3;1.2.1.3. Unbiased Estimators;22 3.2.1.4;1.2.1.4. Use of Schwarz Inequality;23 3.2.1.5;1.2.1.5. Cramer-Rao Inequality;24 3.2.1.6;1.2.1.6. Fisher Coordinates;24 3.2.1.7;1.2.1.7. Efficient Estimation;25 3.2.1.8;1.2.1.8. Examples of Tests for Efficiency;25 3.2.2;1.2.2. Alternative Forms of Fisher Information I;26 3.2.2.1;1.2.2.1. Multiple Parameters and Data;26 3.2.2.2;1.2.2.2. Shift-Invariant Cases;27 3.2.2.3;1.2.2.3. One-Dimensional Applications;28 3.2.2.4;1.2.2.4. No Shift-Invariance, Discrete Data;28 3.2.2.5;1.2.2.5. Amplitude q-Forms of I;29 3.2.2.6;1.2.2.6. Tensor Form of I;29 3.2.2.7;1.2.2.7. One-Dimensional q-Form of I;30 3.2.2.8;1.2.2.8. Complex Amplitude 1/J-Form of I;30 3.2.2.9;1.2.2.9. Principal Value Integrals;31 3.2.2.10;1.2.2.10. I in Curved Space ;31 3.2.2.11;1.2.2.11. I for Gluon Four-Position Measurement ;32 3.2.2.12;1.2.2.12. Local vs Global Measures of Disorder;34 3.3;1.3. Introduction to Source Fisher Information J;34 3.3.1;1.3.1. EPI Zero Principle;34 3.3.2;1.3.2. Efficiency Constant K;35 3.3.3;1.3.3. Fisher I -Theorem;35 3.3.3.1;1.3.3.1. I as a Montonic Measure of Time;36 3.3.3.2;1.3.3.2. Re-Expressing the Second Law;36 3.4;1.4. Extreme Physical Information (EPI);36 3.4.1;1.4.1. Relation to Anthropic Principle;37 3.4.2;1.4.2. Varieties of EPI Solution ;38 3.4.3;1.4.3. Data Information is Generic;38 3.4.4;1.4.4. Underpinnings: A "Participatory" Universe;39 3.4.5;1.4.5. A "Cooperative" Universe and Its Implications;40 3.4.6;1.4.6. EPI as an Autopoietic Process;44 3.4.7;1.4.7. Drawbacks of Classical "Action Principle";44 3.5;1.5. Getting the Source Information J for a Given Scenario;45 3.5.1;1.5.1. Exact, Unitary Scenarios: Type (A) Abduction;45 3.5.2;1.5.2. Exhaustivity Property of EPI;45 3.5.3;1.5.3. Inexact, Classical Scenarios : Type (B) Deduction;46 3.5.4;1.5.4. Empirical

Scenarios: Type (C) Induction;47 3.5.5;1.5.5. Summary;47 3.6;1.6. Information Game;47 3.6.1;1.6.1. Minimax Nature of Solution;48 3.6.2;1.6.2. Saddlepoint Property;48 3.6.3;1.6.3. Game Aspect of EPI Solution;49 3.6.4;1.6.4. Information Demon;49 3.6.5;1.6.5. Peirce Graphs;49 3.6.6;1.6.6. Game Corollary;50 3.6.7;1.6.7. Science Education;51 3.7;1.7. Predictions of the EPI Approach;51 4;2 Financial Economics from Fisher Information ;55 4.1;2.1. Constructing Probability Density Functions on Price Fluctuation ;55 4.1.1;2.1.1. Summary;55 4.1.2;2.1.2. Background;56 4.1.3;2.1.3. Variational Approaches to the Determination of Price Valuation Fluctuation ;56 4.1.4;2.1.4. Trade as a Measurement in EPI Process;57 4.1.5;2.1.5. Intrinsic vs Actual Data Values ;58 4.1.6;2.1.6. Incorporating Data Values into EPI;59 4.1.7;2.1.7. Information J and the "Technical" Approach to Valuation ;60 4.1.8;2.1.8. Net EPI Principle ;61 4.1.9;2.1.9. SWE Solutions;61 4.2;2.2. Yield Curve Statics and Dynamics;63 4.2.1;2.2.1. Summary;63 4.2.2;2.2.2. Background;63 4.2.3;2.2.3. PDF in the Term Structure of Interest Rates, and Yield Curve Construction ;64 4.2.4;2.2.4. PDF for a Perpetual Annuity ;68 4.2.5;2.2.5. Yield Curve Dynamics;70 4.2.6;2.2.6. Relation to Nelson Siegel Approach and Dynamical Fokker-Planck Solution ;73 4.2.7;2.2.7. A Measure of Volatility;74 4.2.8;2.2.8. Equilibrium Distributions; EAN/ISBN : 9781846287770 Publisher(s): Springer, Berlin, Springer, London Discussed keywords: Datenanalyse Format: ePub/PDF Author(s): Frieden, B. Roy - Gatenby, Robert A.
