WORLD: Reggae, POP: Today's Top 40 Details: Casper In a small eastern Ontario community, in the Town of Picton this young country boy was growing up with visions and aspirations of owning his own recording studio and being an inspiring reggae singer. Well who said dreams don't come true if you only believe! After moving too the big city at the tender age of 18, Ron Tuttle's life changed forever, it has evolved into a great success story. From being picked on for being different in a time where it was and still is somewhat adverse to be a white reggae artist, to now being an amazing teacher of life survival skills and reggae music. Today Ron is a music producer/engineer and a powerful vocalist as CASPER in all styles of reggae music! With unlimitedsounds records as a vehicle, CASPER's recordings push the envelope in lyrical content to change people's minds and captivate all with inspirational messages, as well as a healthy dose of fun lovin' tracks. Magical moments experienced in visits to Jamaica have brought CASPER closer to the people of this celebrated island, which is evident in the tracks 'When U Whine It', 'Poor People' and 'Summer Girls'. Ron's journey has also taken him to the spotlight on the JENNY JONES show, Much Music's ELECTRIC CIRCUS, REAL FLEX TV (in Jamaica) and on local and international radio stations where he's made an impact. Knowing what he knows now, all he want's to do is help people further their dreams through their music.
