Listening to this folk-rock cd is as good as lickin' the beaters. 17 MP3 Songs FOLK: Folk-Rock, EASY LISTENING: Ballads Show all album songs: Back East Songs Details: I have always found my inspiration and sanctuary in the outdoors while hiking, paddling, skiing or just ambling. I think a good song is like a photograph or painting in the way it captures a moment in time. All my songs are based on real events, people and places in my life. Musically, I have been inspired by great artists such as Dan Fogelberg, John Denver, Jim Croce, Gordon Lightfoot, The Eagles, America and a ton of others. I truly hope my songs touch you deeply in some way. Take care and thanks for listening. Don
