

Mp3 Greg Otterholt ***** (greg O.) - Black & White Portrait

[DOWNLOAD HERE](#)

Moving fun with something for everyone. Greg's eclectic musical style is anything but predictable. From Rhythmic Pop to R B, to rock, funk, reggae, tunes that touch the soul... You'll hear a very versatile voice a powerful message to match. 13 MP3 Songs GOSPEL: Contemporary Gospel, POP: with Live-band

Production Details: Greg's voice is probably most well recognized on TV and radio across the Northwestern U.S. and Southwest British Columbia. He's the man behind the microphone for many jingles and commercials and is most consistently heard and seen as one of the news hosts and a weather reporter for KVO5 TV. But his accomplishments as a singer, songwriter and all-around inspirational entertainer continue to grow in acclaim from an ever-expanding audience. Being born with only one arm, Greg grew up with a variety of challenges... the greatest of those being the misperceptions and pity of others. Labeled a "crippled child" by some, he was born in an era when class, color and capability often determined a persons potential. Yet that skepticism only drove him to achieve success after success. Greg's athletic accomplishments have been seen on televisions Wide World of Sports for ski racing... on the field of the World Cup Soccer Tournament with the U.S. Amputee exhibition team... and in the pages of Golf Digest after hitting a "one-handed" hole in one. His Professional achievements include a well recognized career in Broadcasting... his own media production company... and the reputation as a skilled Producer and Performing Artist, most recently adding a third solo album to his credit. (See "Other CD's you will love" just to the left side of this page for the album: "Was, and Is, and Is to Come") He has a story that will enlighten and inspire others to overcome adversity through a power much greater than their own. His songs and concerts are filled with fun, encouragement, and entertainment... and an eternally positive perspective. Go to gregomusic for more.
