Listener's Review -- "It's a rare find to hear a quality voice singing classical arias with a contemporary orchestration that doesn't diminish the power of either. Each time I listen, I choose a different favorite piece; today I am loving 'O Mio Babbino Caro.'" Listener's Review -- by CK "This CD rocks! Jahna is amazing! The classic world meets the modern world. With its incredible innovation Jahna makes it possible to beautifully combine classical music with modern music in various ways and styles. You are an amazing artist! Cheers to Jahna and thanks for introducing your new music. Can't wait til your next album is coming out." Listener's Review -- by Wendy V "You sound like an angel! I listened to your CD when I was driving my car. The combination of the music and your voice was so peaceful and amazing! You sound like an angel! Instead of driving I wish that I was in a sacred place to be able to close my eyes and listen to the sounds of the world music and your singing."
