Old time acoustic blues and rags from the Piedmont, New Orleans and new time acoustic blues 11 MP3 Songs  
BLUES: Acoustic Blues, FOLK: Folk Blues Details: The music I play springs from the American oral tradition, from the largely unheralded but gifted poets and musicians who gave us a truly American music called the Blues. That music has grown in many directions rock, Chicago electric blues, rap, soul, R&B. The music on this album is where all of that came from. It's blues from the Piedmont and from rural Mississippi. It's music from the hill country where white and black traditions mixed words and chords. It's rags and songs from New Orleans, where European traditions were infused with new vigor by native musical style. And there's some Tin Pan Alley, too, because the music's too good to leave out. It's all just Good Old Blues. It's the kind of music you play on your porch, the kind you have in your head all day. Each song has a story, and the store is too big for a CD card insert. So I put them on my website as liner notes. See them at [goodoldblues.com](http://goodoldblues.com). Also, check out the Blues7s podcast at iTunes and the website. Hope you enjoy!
