Down South Rap/Hip-Hop and yet a twist... It's Real. 13 MP3 Songs HIP HOP/RAP: Southern Style, HIP HOP/RAP: Rap Details: Still on Fire! Lazy J's debut solo album was due to hit the streets in late '05 but it was delayed due to duplication complications and ole hurricane Katrina. And now finally it's here! Plus the album cover art has been redone and it's blazin'!!! "13 tracks of cooked crack" quote Lazy J ("Back 2 My Roots" from Rat Pack '05). "Down 2 Ride", a local favorite, will be the 1st single for the radio. This debut album features the established producer and engineer David Faulk a.k.a. "D-Funk", who also sang the chorus for track 8 "Weed Man." The album is produced by D-Funk and 2 tracks, Down 2 Ride Weed Man, feature a live guitar played by D-Funk. Also, the album was primarily recorded and engineered by D-Funk, but the Felons ended up adding a track made in their very own studio, track 2 "Way down South", which was engineered and mastered by Lazy J himself. Nip-Gee from Psycodic Noize also gets his point across in track 3 "Saga Continues". This CD is packed with that down south hip-hop sound and yet a twist, it's real.
