It sounds like dope indie rap,i'm influenced by sf bay area and sacramento music largely,and i like GLP,Living Legends,The Coup,11/5,mac dre,z-man,heiroglyphics also other stuff like mf doom, Galapagos4,kool keith,Immortal technique. 15 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: Rap Details: Ive been Rappin And producing shit for about 6 years. I co- produced and dropped an album called SOUNDMIND "play it like a tape". It was A small release and we pretty much only moved it out the trunk and shit, it was a classic, in our area and sold well,right now it's out of print, but i'll put it on our website soon.Play it Like a Tape also featured early material from Righteous Movement(a local sac crew) I have also worked on a project that's unreleased called collective concious, it was a project with producer Beats Daily who did about 6-7 beats on my upcoming solo effort. We made about 25-30 songs for the collective concious project, a full length album will drop eventually,when we get our shit together. It is mostly early material from me and Matt Kim one of my fellow mc's from psfuckyou,as well as the RVC (a crew of mc's i kick and smoke weed with)The collective concious shit is like a comp of music kick it sessions we had for about a year.everything on it is real different and eclectic. After that we started a new group which was RAD (Rick Andy Dave) We did a gang of shows, and realized Matt Kim was pretty much becoming a full time rad member,so we changed our name to ps fuck you.Now we are about to drop a lot material we've been laggin on putting out as well as recording new shit. I just dropped my first solo project it has 15 songs and is titled "9 MILES WEST OF PLACERVILLE" So stay tuned for our projects come and check out our band live. Anyone dope that wants to get down on music hit me up.
