

## Mp3 The Meddling Kids - Pop: Power Pop

[DOWNLOAD HERE](#)

"There's Cheap Trick, The Ramones, The Goo Goo Dolls, and even The Beatles thrashing around in this band's mix. But somehow - it doesn't end up sounding like any of those influences. It's pop, only louder and a little heavier." -Frank DeBlase 10 MP3 Songs POP: Power Pop, ROCK: Rock Roll Show all album songs: The Meddling Kids Songs Details: The Meddling Kids, a 4-piece rock band from Rochester, NY, smack in the middle of the "snow belt" . . . yeah, there isnt much to do in the dead of winter but fortunately you got the Kids . . . writing songs that will have you singing along, well after the show is over. Tyler (Vocals/Guitar), Rezz (Guitar), Brian (Bass) and Billy (Drums) combine classic rock influences, such as The Beatles, Cheap Trick, Kiss, and the Rolling Stones, with the spirit of the 80s to produce the soundtrack to your next party. Strong pop melodies fattened up with a Marshall stack Tyler says "Growing up as kids we listened to everything from Ratt and Van Halen to Michael Jackson and Huey Lewis so we write melodies that suck you in and then drop a bomb on your little head, it's nice!" Plus an energy-filled show that turns heads and drops jaws, "When we started this band, we decided to give people the kind of show we always wanted to see," says Billy. Good enough to be invited to share the stage with big boys such as Blues Traveler, Molly Hatchet, Firehouse, The Good Rats as well as members of Kiss, Guns n Roses and Fuel. With the dawn of this new disc and the regional touring that entails, everyone's gonna get the chance to love The Meddling Kids. "The Meddling Kids are radio-friendly, fun, cute and insanely marketable" - Excerpt taken from Low Budget Super Hero e-zine (Sep 07). "The songs are well-written, hook-laden bursts of cool. And it's the band's heavier big amp, big riff approach that brings the rock. The Kids prove melody doesn't always have to be placid or soft. And an opening track "Let Her Go" is a smash hit just waiting to smash." - Frank DeBlase, Rochester City Newspaper
