ELECTRONIC: Tech-House, ELECTRONIC: Industrial Show all album songs: Triple M Revolutions
Songs Details: I'm a Canadian DJ in the making. I started toying with electronic musical programs back in 2002 to see if I had what it took to make great electronica. Well, with 4 demo albums on my back, my friends were impressed with my creativity and so I now have the strength and encouragement to take the next step - that is, to make a real impression on the electronica genre. I host my own Electronica show on CKCU 93.1 FM Radio based in Ottawa, on alternating Friday mornings from 2am - 7am. My 5th album, Triple M Revolutions, is a continuation of the electronic style of my 4th demo album, Militarize (2005), and it revolves around the theme of revolution. TMRs covers the genres of dance, industrial, house, and techno in 12 in-depth instrumental tracks. Rather than explain what the tracks are about, I let the listeners use their imaginations when they think about the music and the track name associated to it.
