

Advances In Computing And Information Technology

[DOWNLOAD HERE](#)

The international conference on Advances in Computing and Information technology (ACITY 2012) provides an excellent international forum for both academics and professionals for sharing knowledge and results in theory, methodology and applications of Computer Science and Information Technology. The Second International Conference on Advances in Computing and Information technology (ACITY 2012), held in Chennai, India, during July 13-15, 2012, covered a number of topics in all major fields of Computer Science and Information Technology including: networking and communications, network security and applications, web and internet computing, ubiquitous computing, algorithms, bioinformatics, digital image processing and pattern recognition, artificial intelligence, soft computing and applications. Upon a strength review process, a number of high-quality, presenting not only innovative ideas but also a founded evaluation and a strong argumentation of the same, were selected and collected in the present proceedings, that is composed of three different volumes. EAN/ISBN : 9783642316005 Publisher(s): Springer, Berlin Discussed keywords: Data Mining, Semantic Web, Soft Computing, Ubiquitous Computing Format: ePub/PDF Author(s): Meghanathan, Natarajan - Nagamalai, Dhinakaran - Chaki, Nabendu
