

Guidelines For Molecular Analysis In Archive Tissues

[DOWNLOAD HERE](#)

Introduction.- Archive Tissues.- Pre-Analytical Treatment of Tissues.- Dissection of Tissue Components.- Extraction, Purification, Quantification and Quality Assessment of Nucleic Acids.- Reverse Transcription (RT).- Nucleic Acid Amplification.- DNA Sequencing.- Microsatellite Analysis.- Methylation Analysis.- Analysis of Copy Number Variations.- Microarrays.- Protein Extraction in Archive Tissues.- Protein Electrophoretic Separation.- Protein Immunodetection.- Mass Spectrometry.- Elements of Good Laboratory Practice EAN/ISBN : 9783642178900 Publisher(s): Springer, Berlin Discussed keywords: Molekularmedizin Format: ePub/PDF Author(s): Stanta, Giorgio
