DONT LET THE BASIC ALBUM COVER FOOL YOU... This album is streight underground.If you like hardcore eastcoast street rymes with tracks that rival d.j. premeir or kanye west this jewel is for you son. 20 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: East Coast Details: BIG SHANG BIO One of Washington, D.C.'s finest, BIG SHANG realizes that there's not a lot to know about D.C. There's been little success in the past for D.C. with artist Question Mark Asylum and probably the most successful rapper out of D.C., Nonchalant, who brought you "5:00 in the Morning," D.J. Cool "Let Me Clear My Throat" was a huge hit, and E.U. Classic doing "Da Butt" was also very successful, but what else does D.C. have to offer? The answer to your question - Big Shang - a multitalented producer and writer who lived all over the metropolitan area of D.C., V.A., and Maryland. He started his career in 1989 and has not, no, could not be stopped since. He's a 250-pound wrecking ball, a powerhouse that's a fore to be reckoned with and has a no-nonsense hardcore East Coast style with a special twist. In 1993, Big Shang moved to Houston, TX to live with his father. He is currently staying in Houston and he adds a hint of southern twang to his hardcore smashmouth style. With songs like "What's My Name" and "Dread Lock Rasta," he's bound to be the next big thing. With three independent albums already under his belt (Mic Controla, Washington Bullet, and Jessie James), he shows no signs of stopping. He's already received praise for his Washington Bullet album and got an article written about this album in the Houston Daily Cougar (the official college newspaper at the University of Houston). He received a loyal fan base from his self-produced 2003 debut and is about to distribute his 2004 debut Jesse James worldwide and is currently working on a new album Natural Disaster, which will be released in December 2006. So, remember his name and watch out for him in the near future. He's the Washington Bullet and he's blasting through the speakers nationwide.
