My songs are a compilation of thoughts, ideas inspirations and sometimes repressed feelings that add a genuine meaning to the song. 11 MP3 Songs FOLK: Folk Pop, ROCK: Progressive Rock Details: Ultimately I grew up listening to roots rock and later on influenced by progressive bands including Yes, Genesis, and the Beatles. My direction and cord structures make up my unique interpretation and style of writing. Looking back I was involved in garage bands and later on performed the quintessential New Jersey club circuit as far North as the Log Cabin Inn in Columbia and all the way South to the fame Stone Pony in Asbury Park or in between some town or exit along the Garden State Parkway. While attending school I studied theory and took my guitar and keyboard playing to another level. After being inspired by fellow songwriters and other artists I finally discovered my true love for original music. Now as a seasoned player and songwriter I have come full circle. My original music is like a bottle of vintage port wine it is now ready to be uncorked and enjoyed. My songs are a compilation of thoughts, ideas, inspirations and sometimes repressed feelings that add a genuine meaning to the song. The goal of a songwriter is to represent truth or try to interpet it the best way you can and also you have to get your point across. I prefer to write about real people and events in my life, and of the lives of other people, doing this brings out the human side of the song. Producer's Notes: "It has been an honor and pleasure for me to have worked with Frank Porcelli. Frank is one of those rare few who can write and perform songs that truly capture some of the more profound thoughts and emotions of our time. Idyllic Vision is a work of art destined to shed some light on a dark world." Tony Christopher, Producer
