Electronic/ambient rock trio out of Seattle brings together 808 drum machines, Rhodes piano, sampling and vocals. 11 MP3 Songs ELECTRONIC: Pop Crossover, ELECTRONIC: Down Tempo Details: THE SEATTLE TIMES (9/04) Debut CD of the month: "As Small as the Center," a stunning production from a fast-rising Seattle band called Mercir. Songs like "The War Room" and "Since the End" owe a huge debt to Radiohead - but a band could reach for much lower standards, and this isn't ripoff material. A man called Zadok is the singer, guitar player and lyricist. From the first words of the first song, you know he can write... Joel Eby plays piano and keyboards and Colin Johnson adds layers of samples and electronics. Whatever they were eating and drinking when they made this beautiful record, I hope they pass it around to other local bands.
