Fluffy poppy queer love songs that will make you smile and squirm. 10 MP3 Songs POP: Quirky, EASY LISTENING: Cabaret Details: I've had a song in my heart ever since I was a little girl. I find inspiration in butterflies and moonbeams. Pink toenails and sugar cookies. Sweaty floggers at BDSM parties and B-movie drag queens in Houston's karoke gay bars. Here's what some of my favorite people have said about my music: "We listend to the album about a million times. The first night we got the cd player to work through the tv it was 5 in the morning, but we sang my 2 lovers like a 1000 times. It was awesome." "I ripped the CD to my phone, and listened to it all the way up to Berkeley from Long Beach." "Send me your cd! I'm your biggest fan!!! I need it immediately to make it a part of the soundtrack for the film i'm working on." "I'm listening to your album right now. It's quite nice. I like it. It's got a cool sound. Yes, the lyrics are somewhat...risque, but I really do enjoy the play on words. Fabulous." "Your music is being prolifically bootleged around the egs and saas fee atmosphere." "I'm smiling a lot as I listen. Is that my girl's voice? YOU ARE PRECIOUS!"
