smooth jazz 12 MP3 Songs JAZZ: Smooth Jazz, EASY LISTENING: Lounge Details: This was a fun solo project. I got tired of letting my songs stack up in shoe boxes in my studio so I decided to start releasing them to see what poeple think of them. The titles of the tracks are true titles about some of the stories of my life. I am thankful to have the gift to play piano, sing, arrange, write and record music tracks for it is truly a blessing from god. I can't and won't ever take music for granted. Music is good for the soothing of the soul and should be shared with the world. "Music For Life" Steven Boyd Music Productions
