Finally a book that really does spell it out for you! I have seen so many other e-books promising to show you how to put a money making site together that only deliver a vague overview of the process. Nico's e-book takes you through the whole process step by step. Loaded with valuable tips and resources. Any one reading this e-book will be pleased. As Nico says in his book, if you don't take ACTION then NOTHING will happen. It's all spelled out for you. If you don't make money from this it will be because you did NOTHING after reading it. Aline Shinder Nico, you have a sure winner with your new ebook ProfitPullingNiches. I have been studying just this subject for the past 4 months, and making some Adsense money already; so I am sure that Nico knows what he's talking about. The unique use of the Bestresponders Blog Poster to automate the adding of fresh material to a site is ingenious.

ProfitpullingNiches contains a plan that even a marketing Newbie can follow to put dollars into his pocket. I recommend this book, especially to get full capability from the Bestresponders special features. There is really no other autoresponders service commercially available that offer everything you'll find in this package. Using Blog Poster might give you an edge over those who can't get their hands on it. You will hear mentions of what the gurus' secrets are that they don't want you to know... well this is one! Make sure you get yours! Cheryl Snider Upper Marlboro, Maryland mybiztraffic.com And here's a very long one I got a few days back... This is definitely one of the best ebooks I have ever spent my time reading, not to mention the cheapest. This ebook shows you step by step how to begin making money with Google Adsense. YOU DON'T EVEN NEED ANY STARTUP CAPITAL TO DO SO! That's what is amazing about this. It's possible to begin earning money with the info from this ebook without spending a dime. All you

need is a little free time and a desire to make money, that's all. Now if you had say a measly \$30 to spend you could earn even more, faster. This ebook walks you through the whole process from day one to when you will start making money via Google AdSense. One thing that has kept me from getting into the AdSense business was the whole part about making a site: buying templates, dealing with all the code, making everything function properly. It just seemed like way too much of a hassle. Well guess what, you don't need to know ANYTHING at all about setting up a website and will never have to deal with any code. This ebook shows you a free resource that will take care of all of this and eliminate you ever having to make your own site. If you're serious about making money online and you have a little spare time this ebook is more than worth the mere \$17. You can easily (very likely within the first month if you get started right away) cover this small cost and begin earning lots of money with Google AdSense. Plus, the great part is your Google AdSense income can continually grow month after month with only having to spend a handful of hours working on this. It almost becomes completely autonomous! Remember, this ebook will walk you step by step through the process of making money with Google AdSense and even teach you how to begin earning with no startup costs whatsoever. If you're willing to put some work into this (nothing comes easy) I'm positive you can begin earning money and eventually be earning a full time income. Don't let this ebook pass you by like so many others out there. This is the one and only one you'll ever need.

Regards, Jason Wurz

First what I want to tell you is the first time that I read until the end such kind of book. Certainly this ebook is not complete but explain step by step in a simple way how to earn money on Internet If I must summarize in a few words, I would say book rich, condensed, well structured and explained well. Its author can remain humble and realistic.

Best Regards Benoit Crispeels

Warning: Do NOT Buy Any eBook About AdSense Unless It Meets The Following 4 Criteria:

There is a lot of confusion surrounding our field. I want to give you 4 criteria or elements you absolutely, positively must have in any solution you obtain:

A Step-by-Step approach: It needs to show you step-by-step how to setup your site from scratch even if you don't know html.

No expensive extra's needed to get started: You will learn methods that take little very little cash to start. A lot of people teach methods that do work. But they cost a lot of money. Where does that get you if you can't afford the methods? I'm going to tap you into my best resources to save you all the money possible.

Easy to get started: You don't have to be a marketing guru to do it. If you follow a few simple steps and have some spare time on your hands then you can make this work.

Don't be impressed by screen captures of massive amounts of money and gigantic checks: Don't

fall for the gigantic checks and stats they show on their page just so you would buy their product. I deliberately didn't do that because I want you to be clear in your head when buying this ebook. All the screenshots of all the high earners online won't make ANY difference to you if you don't start right now! These steps are working for me and they WILL work for you too whether I show you my own earnings or not! You Get At Least 100 Times Your Money's Worth! Act immediately and receive the following bonuses Since I know it's 100 to your benefit to act right away, I want to sweeten the pot and give you every possible reason to say YES today! If you respond immediately, you'll also receive the following: Bonus 1: FREE Master Resell Rights (Value \$197) Even if you are not interested in making money from AdSense you can still earn your money back just by selling 1 copy of this ebook and keep ALL the profits. You can even pass along the resell rights to your buyers. Bonus 2: ProfitPullingNiches Sales Letter And Graphics I'll even give you the exact same sales letter you are now reading, plus the graphics that costed a few hundred bucks to create. (note: you can't alter the graphics but you can change the sales letter anyway you want and add your own name next to mine). Bonus 3: Building Your Own AdSense Empire, with resell rights (\$197 value) in case I left something out in my own ebook (which I doubt), I'll give you AdSense Empire with Master resell rights on top of it absolutely FREE! I have sold this ebook on it's own for \$37 upto \$97 and didn't got a single refund request for it. It says enough about the quality of the ebook
