The supplementary hypothesis offered in this book suggests that the search for three or four different fragmentary documents in the Pentateuch is erroneous and that the editorial procedure was one of successive additions upon one original text, an organic procedure in a culture where the written word was respected, and revelation revered. The earliest layer of Pentateuchal narrative is E which this book focuses on isolating. EAN/ISBN : 9783110221688 Publisher(s): De Gruyter Format: ePub/PDF Author(s): Yoreh, Tzemah L.
