

All The Sun Goes Round: Tales From The Zodiac - Reina James

[DOWNLOAD HERE](#)

This book, a unique marrying together of mythical storytelling and the astrological signs, contains twelve enchanting new tales - each tale exploring the many different characteristics waiting to be recognised within each sign. The land they're set in is Nowhere in Particular; the time is somewhere between Then and Now; the characters and creatures that inhabit the pages all reflect something of the zodiacal signs they represent. And because every one of us is capable of achieving wonders and being disagreeable in the very same breath, you won't find light here without shadow, gain without loss, or being far away without a journey home. A beautiful and entrancing book which will make an ideal gift. It is suitable for all readers, young and old, whether astrological by nature or not - the stories cannot fail to delight and entertain.
