Easy Listening Crossover Instrumental Grooves 13 MP3 Songs in this album (48:39) ! Related styles: EASY LISTENING: Mood Music, ELECTRONIC: Nu skool breaks People who are interested in Larry Carlton Billy Preston Harold Rayford should consider this download. Details: Almost every sunday after church I feel the inspiration to create some music and these are just a few of the tracks that I come up with, Every song has a deep meaning like Trk. 10 I was inspired to write a song to this track called We Must (Take Better Care Of Our Children) This album contains a mix of Contemporary Gospel and Smooth Jazz like tunes without real horns I like music with a lot of movement and changes in it. I'm a keyboard man but if I could learn another instrument it would with no doubt be the guitar, Most of the tracks on this album can be described by three words SWEET SLOW and MELLOW just plain laid back contemporary Instrumental Gospel (Church Shout Music) Is an uptempo version of the way we at New Zion Gospel Church played praise music back in the 80s I like to call my music none hype music not that there's anything wrong with being excited about The Lord but I got some what of a late start on the recording end of my music and by that time I felt it was time to slow it down a little so most of my music is a reflection of over 20 years of inspiration and creativity fusing together to form liad back gospel grooves that reflects the mood of a 48 year old unknown gospel artist. B.E.LAHMON AS A CHURCH MUSICIAN Over 20 years ago when I played the organ for our choir they would have never excepted my contemporary nu school style but I can understand that the church is the church and they for the most part don't care too much for change but I enjoyed working with them. CROSSOVER TYPE SONGS The tracks on this album are all instrumental crossover tracks that will fit many different genres of songs but mostly background in easy listening laid back mellow grooves. This project is totally instrumental but there's a message in the music, so we invite you to sit back and let the music speak to your heart. A Famous composer once said

in a song that (Music is a world within itself with a language we all understand) And that's a true statement indeed now when I composed these songs I was inspired to call them what I felt they were speaking to me at the time ,but you may hear something totally different all I can say is (Let The Music Speak)
