ELECTRONIC: Dance, ELECTRONIC: House Details: (It Ain't Funny) Almost 80 minutes of butt movin
music. BUCKEY, has a long history making music his way. Throughout high school and long after, he
played with different bands along the east coast, but his desire was always to be in the studio writing and
producing. In 1991, that dream came true. He started with a keyboard, a mixer and an 8 track tape
machine in his basement just to see if he could bring the music out of his system. After writing and
producing cuts on several albums and numerous singles, he decided to get his own projects on track. In
1992, he formed Hitsteria Records and Buckeytown Publishing to help promote local talent in the
Washington DC area. Writing and producing under the name, BUCKEY-3, he now makes music in a full
blown project studio. With the release of It Ain't Funny, BUCKEY has come into his own as a dance music
composer, producer,remixer and artist. A.J. Mahdi
