70s rock and roll with a modern edge 11 MP3 Songs ROCK: 70's Rock, BLUES: Rockin' Blues Details: Based out of Tucson Arizona, Jelly was formed with the goals of writing, recording, and performing original, high-energy rock and roll the way it was meant to be. Tapping into the song of life, Jelly puts forth a powerful vibe of free spirited energy that is reminiscent of rock's more experimental days. Using the musical influences of the masters of American music, and the great jazz and blues artists of the 20th century, Jelly has the gift of an un-watered down explosion of sound that is constantly evolving. The songs never sound the same each time they are played. Jelly lets the songs play the band. The songs drift in and out of improvisational free form jams that are woven into a fabric of slashing riffs and driving rhythms, creating an audible feast for music lovers everywhere.
