

Mp3 Ove Stylen - It's About Time

[DOWNLOAD HERE](#)

Pure, clean country of the best kind. 12 MP3 Songs COUNTRY: Modern Country, COUNTRY: Country Folk Details: Its about time - Ove Stylen has a real love for the music that he plays: pure, clean country of the best kind. On his new record "It's About time", Ove Stylen provides country music that is just as hard core as what you heard on "Dusty Boots". But he also opens up to a broader selection of country music than he did on the Alan Jackson inspired debut album. This time his band embarks on cajun flavoured songs like "Countrified", as well as bluegrass (Pork On The Run). The country dancers are serviced with songs like "Pickup Jasmine" and "A Little Bit of Happiness", already established concert favourites. Humour and self irony is very obviously present in "From Duke to Alan", a song dedicated to the many jazz musicians who have turned to country. Add the personal touch of "The Hitch Hiker", and the ballad "Two Broken Cigarettes", and you have one of the most varied and many faceted country artists of 2005: Ove Stylen. The record consists of 12 tracks, and Stylen has composed and written all songs himself. It was recorded at NRK Srelandet Music Studio during December 2004 and January 2005. A star team of Norway's best musicians participated: Stian Carstensen (from the group Farmer's Market) plays accordeon, banjo and mandolin, and thereby adds a continental flavour to Ove Stylen's music. ystein Fosshagen from Bergen is spicing up several songs with his lively fiddle playing. Knut Hem does the same thing playing his dobro. Some of the most brilliant passages are provided by steel guitar virtuoso Dag Wolf, and G.T. Ugland adds a solid acoustic guitar. Drummer Freddy Augdal provides the necessary punch to the songs, while Espen Skeie is organising everone and everything, being responsible for production and arrangements. Add to this Ove Stylen's powerful voice, and you have a winning team! Ove Stylen's debut album, "Dusty Boots" (2003) received much acclaim from music critics and reviewers. Since then Ove has become an established name on the concert and festival circuit. He played many

Scandinavian festivals during the summer of 2004. The first record still creates response and positive reactions from around the world, and one reviewer called it "the best european country album ever". Ove Stylen comes from the small country village of Froland in Southern Norway.
