Comedy, really funny and hip stuff that is actually non offensive in stone country format. 9 MP3 Songs
COUNTRY: Traditional Country, KIDS/FAMILY: Children's Pop Details: Snort Kleebwacker has been thrown out of every bar from Fargo to Ft Worth and has the lumps on his head to prove it. He was breast fed by his father and is pursued by desperate women coast to coast. He is a beer short of a six pack and he's flipped his flap-jack but he is harmless if you dont let him drive. Snort loves everybody but the songs he sings were all written by Jimmy Raschel. Actually, Snort is Jimmy's Alter Ego and has been slowly cooking for a long time. Over the years the character slowly developed in bars and concerts across the country and if there is one thing people remember it's.....SNORT. His humor is infectious and totally non offensive but beware...it is NOT politically correct!!! PLEASE CHECK OUT THE WEBSITE... snort.tv and remember Jimmy and Snort both love ya!!
