Rap with an R&B Flavor 14 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, URBAN/R&B: R&B Rap mix
Details: Two motivated brothers standing together as one is how these two guys came up with the name Toombstone. Born to the same parents these real brothers were a new Hip-Hop sensation in the early nineties. Their R B flavor, mixed with their smooth rap style, made anyone who listened to them shake their head and move their feet. Known as Snippa and Spadez these two brothers would lay down some of the heaviest messages ever to be recorded on Hip-Hop tracks, that also reflected the ballads and funk of the eighties and early nineties. Their album,"Take A FatAss Hit", is one that any person who likes to hear a little R&B mixed with Hip-Hop would love to have as a collector's item.
