Wouldnt You Like To Know The Secrets That The Top Gurus Use To Successfully Contact And Get Accepted By Joint Venture Prospects That Push Their Product Sales Into The Millions? Even if youve never done a single joint venture, Ive got the exact step-by-step information you need to get in with with some of the best joint venture partners possible, and Im going to reveal everything to you! Dear Joint Venture Seeker, When I first started out in online business (coming on 7 years now) I was one of the most annoying people you could have met on your travels. If you knew your business facts, Id ask you about everything you can possibly think of, from list maintenance, making sales, traffic, joint venturing, you name it, I would have asked you. Its this single factor that I attribute to the success Ive seen online. There was always one question though that I was particularly interested in... It was a simple one, although not quite as simple to answer as it was to ask. This question was Hey, I saw the massive launch of your site the other day. I hear you secured a circulation of almost half a million on launch day, how did you manage it?. Apologies to those in that I asked this over and over again, every single time they launched a product, but hey who wouldnt, after all, what would a circulation of half a million on your

product launches mean for your sales? Anyway.. The answer was always the same. Joint ventures they told me. So my next question was Right, so you go out and find all those who are successful, and send them offers and deals trying to get access to their promotion material for free right?. I always got a straight answer to that one. Yes. That is, always but once. There was only one guy that gave me the full story. What he told me changed the way I approached successful joint venturing forever. Heres what he said to me: Oh no, definitely not. Thats what everyone else is doing and what everyone else is teaching. If you could see how many annoyed list owners I speak to every day that keep getting hundreds of useless deals every week, wasting their time and really getting on their nerves, youd probably go so red in the face with embarrassment, youd never do that again. So, whats the answer? The conversation continued. So if all these list owners are annoyed at the piles of useless offers, that would mean that very few are actually being noticed, or even accepted. So if I wanted to secure massive launch day circulations for products like you do, how would I go about it? Ill tell you on one condition he said.. You promise not to tell anyone else for 12 months. Let me get my big name contacts and my huge circulations and secure my long term deals first, then you can tell who you like if these methods still work. I agreed. My business has changed beyond recognition for the better simply because of the techniques this guy taught me in about 30 minutes. Ive honed this technique, stress tested it, pushed it to its limits and out came what I now know as the most successful, and most efficient methods of securing massive product launch circulations through joint ventures that Ive ever seen. The concepts are simple, but the power this grants is immense.
