Display Your Sales Message's At Anytime... Long After Your Prospects Leave Your Website! You're probably wondering exactly what 'Contact Automator' is. Well... its a revolutionary new program that allows you to create little applications that sit in your prospects system tray (The bottom right of your screen beside the time). This application will check whatever URL you tell it to as often as you want. And every time the URL updates, it lets your prospects know! Let me show you exactly how 'Contact Automator' works. All you do is simply open the program, fill in a few simple options, and press "Build Application".

1. Check Every - Enter how often you want this software to check for updates.
2. Type Text Message - You can put any notification text you want in that space, this is the update text
3. Application Title - That is the name you want to give your small updater software e.g. Salad Recipes Updater
4. Website To Check - Enter Your Website here
5. Build Location - This is where your created application will be saved on your hard drive.

'Contact Automator' will create an .exe file ready to distribute to your prospects and customers!

Now anytime you want to bring them back to your website and sales message you simple update the page you entered when creating the file, and within minutes you're prospects will receive an alert direct to their desktop That's all there is to it!
