CC was taken up in a kind of fervour which makes this album such a special one for him. As recording progressed a concept formed - of special creative dreaming people gathering together and leaving on a journey. Hailing from Michigan USA Chris Conway has built his music career in the UK, becoming one of the most fascinating musicians on the scene. As well as being an amazing singer-songwriter, world music, electronic music, acoustic, Celtic, new age, and jazz all make up Chris Conway's musical world. Time Out Magazine of London said of him, "Rootsy multi-instrumentalist Conway is a master of witty, touching acoustic songs. He purveys a lilting and melodic music of depth and emotion" With his new album Close the Circle, Chris Conway takes his magical way with songs to new heights. Chris Conway's songs are full of amazing harmonies - Crosby Stills Nash fans are in for a treat - in fact Holding Together magazine described him as "the UK's David Crosby." Others have noted The Beach Boys Brian Wilson's influence. His huge and unique experience of different musics, together with his skills on so many acoustic and electronic instruments is part of what makes Chris Conways music so special. But it's also the lilting way his effortless lyrics weave into the music that is so outstanding. The songs just get inside your head - and stay there. Chris Conway is a true

multi-instrumental wizard playing... piano, keyboards, 9string acoustic electric guitars, low, tin twin whistles, live electronics, kalimba, theremin, zither, and vocals. He has worked with a very diverse set of top musicians - he's played with members of Jethro Tull and Fairport Convention and toured with Peter Tork (from the Monkees).
