"New Age world music with a magical touch. Amazing music that impacts you like nothing else I've ever experienced" - Julie M., Denver, CO 10 MP3 Songs NEW AGE: Meditation, EASY LISTENING: Love Songs Details: "In my opinion this CD saved my life. I was depressed over a recent loss and couldn't do anything. So, I just put "Dream Sketches" on the CD player on automatic repeat and listened to it for two days straight and did almost nothing else. I don't know what occurred or why but I came out of my depression after two days of listening and I was ready to get back into living my life. To me, there is something magical about this music that I can't describe. I guess it sort of reminds me that life is worth living and I should be part of it. I love this CD and have practically worn out my copy already." - S. McLeod, Los Angeles, CA
