Smooth Jazz 16 MP3 Songs JAZZ: Smooth Jazz Details: Originally, from Hampton Roads Va, Dangerfeel was influenced by a wide range of music legends including James Brown, Barry White, Gamble and Huff, Lonnie Liston Smith, Roy Ayers, Parliament Funkadelic, Prince, Jimmy Jam and Terry Lewis, just to name a few. He taught himself to play keyboards at the age of 8 years old. Being intrigued with the process of musical arrangements, Dangerfeel would listen and learn the sounds of each individual instrument on songs he heard on the radio and then recreate them on his Casio Keyboard. After recently moving to the Washington D.C. Metro Area, he became known in the local recording studio circles as the cat with third dimensional sound, creating smooth grooves that engage emotions. Currently, an active duty member of the armed forces, Dangerfeel is very driven and dedicated to the principles in which he believes. After meeting Leon Stewart, Sr., President / CEO of SOW Records, Dangerfeel was delighted to be signed to a recording contract.
