A New Day, A New Sound Songs Details: My name is Keith roberts. I am a keyboardist whose love of music knows no bounds. I can listen to music all day long. I am originally from Tobago (Trinidad and Tobago but now living in London, England)and not only did I grow up listening to the sweet sounds of soca music but I was also exposed to american top 40 music (Rick Springfield, The cars, and later on Prince, Rick James) I was trained in classical piano and later on was tutored by John Arnold in jazz piano. After learning how to play by ear, there was no stopping my creative instincts. Later on in life, I got into the music of Yanni and Vangelis still retaining my love of smooth jazz and soul music. This cd represents my love of instrumental music. Some of it was composed right there in the studio. The cd is my interpretation or view of life as a believer in God and as it's played, the songs have been crafted in such a way that it will cause you to visually imagine scenes being played out before you as well as to get you in that worship frame of mind. Some of the songs will help you to meditate as well. It's a great cd. Enjoy.
