New Age, ambient, downtempo, laidback instrumental songs. Great background music for exercise, yoga, driving, with dinner... 7 MP3 Songs NEW AGE: Ambient, ELECTRONIC: Soundscapes Details: Kevin Dambruch makes modern instrumentals blending electronica, new age, pop, alternative and blues... After playing styles ranging from Chicago blues to psychedelic rock, Kevin Dambruch has given himself over to instrumental New Age/Ambient bliss. His reposeful style blends the best of both worlds--agile guitar rhythms amid subdued backdrops of electronic beats. These are sounds for a domesticated existence. Primarily a guitarist, he also handles all other instruments including bass, keyboards, rhythm programming, sequencing, engineering, production and recording. What will you hear on this CD is a collection of instrumental music, mostly relaxing, simple, memorable melodies and grooves...stylistically somewhere between ambient and new age styles. The music is intended for background music. Try it with yoga, on the treadmill, on a long drive or with a glass of wine and a good book. All pieces written, performed and recorded by Kevin Dambruch..
