Kick ass metal riffs that blend with melody, aggression, and rhythm. In your face metal that goes straight for the jugular. 11 MP3 Songs METAL: Power Metal, METAL: Thrash/Speed Metal Details: KRANIUS (originally KRANIUM) was founded and formed in 1996 by Gary Mungins. Christmas 1999 saw KRANIUS's first release the "WHAT I AM" E.P. which received an encouragingly good download success on MP3.com. The name KRANIUM was changed the following year, to KRANIUS due to unforeseen circumstances, and with that, Summer 2000 saw the release of the 1st KRANIUS album, "TURNED TO STONE" which was written, recorded and performed by Gary, and again had excellent download success on MP3.com. In 2001, Gary made live performances promoting the "TURNED TO STONE" album locally in Manchester UK with a live setup and extra members which later dissolved, but in his true spirit of being a musician, Gary is still strong influence and strong ongoing force behind KRANIUS with growing radio play and reviews. To date, Gary is still writing, and recording his own material which leads up to 2005, the present! The new 2nd KRANIUS album has just been unleashed to the metal loving masses and show that KRANIUS is still a band and force to be taken notice of and reckoned with! METAL MARK - AUDIOAGGRESSION RADIO (Internet radio show)- New York USA: The combination of styles recorded works well! and WILL appeal to old/new school metal folks and melodic metalheads too. The ambient track at the end nicely closes the CD, a CD of metallic diversity! STEPHEN ROBINSON - CATBIRD'S PHANTASMAGORIA (TOTALROCK- London Radio Station) London UK: An amazing album! If you like the better bits of Load era Metallica mixed with Megadeth and Annihilation then this is for you! EVILUTION album comes with a FREE bonus DVD "The Making of Evilution"!
