Singer/songwriter folk 5 MP3 Songs FOLK: Folk Pop, ROCK: Acoustic Details: Scandinavian artist Rikke Lundorff has hit a nerve in the music business well beyond the shores of Denmark. The well-known pianist Michael O'Neill (who has played with: Mary Coughlan, Enya etc.) declares, after hearing only one of Rikke's songs, that once she lands on the Island of Ireland he wants to accompany her. Keith Donald (Van Morrison/ Sting) referred to her vocal as honey to the ear which leaves me with no doubt that she's not only original, but will fit into all categories in the music sphere. Rikke herself has been writing songs for seven years even though she's only 24 years old. There is another way around it and no, no, no are new songs, while the other ones were written during her time at the Carl Nielsen Academy Of Music in Denmark. Once you've heard Rikke and her band, you are drawn in and captivated by the intensity and intimacy of both her and her wonderful musicians. A real Joy. Give Rikke Lundorff a listen, then you can make your own mind up. Dave Hennessy
