

Nature And Culture: Rebuilding Lost Connections

[DOWNLOAD HERE](#)

There is a growing recognition that the diversity of life comprises both biological and cultural diversity. But this division is not universal and, in many cases, has been deepened by the common disciplinary divide between the natural and social sciences and our apparent need to manage and control nature. This book goes beyond divisive definitions and investigates the bridges linking biological and cultural diversity. The international team of authors explore the common drivers of loss, and argue that policy responses should target both forms of diversity in a novel integrative approach to conservation, thus reducing the gap between science, policy and practice. While conserving nature alongside human cultures presents unique challenges, this book forcefully shows that any hope for saving biological diversity is predicated on a concomitant effort to appreciate and protect cultural diversity. Publisher: Routledge Illustration: N Language: ENG Title: Nature and Culture: Rebuilding Lost Connections Pages: 00296 (Encrypted PDF) On Sale: 2010-07-14 SKU-13/ISBN: 9781844078219 Category: Science : Life Sciences - Ecology Category: Science : Life Sciences - Biological Diversity
