Prelude To The Pet Plague In a world where enhanced animals have altered the ecology beyond repair, the great protective enclaves are beginning to be built, but there will be no refuge there for altered humans, nor for normal humans trying to protect their enhanced pets. A woman with feline genes, bred for sex slavery. A man who kills to protect his pet. Two truckers who don't care about laws designed for the cities. All are on the run across a surreal landscape where their odyssey takes them into the dangerous wilds, along roads and highways rapidly becoming impassable, and into cities where they have to live as outlaws. There is a chance for them to find a normal life if they can survive long enough to be accepted as immigrants to the moon. But only two of them can go, and only if they aren't caught first. Altered Humans is a novel set in the days before the pet plague reaches its peak, where society is in flux, where survival is for the strong, but where goodness and generosity can still be found-if you don't die first.
