Musings, rantings and general verbal mayhem from the mind of the comic giant. 30 MP3 Songs SPOKEN WORD: Comedy, METAL: Rapcore Details: From parts unknown, Angry Bob has come onto the comedic scene like a rogue tsunami crashing into a category 5 hurricane - he has been likened to a combination of Faust and Falstaff on steroids and pizza; wrenching the tired souls of his audiences from their dusty shells and reanimating them with his apocalyptical rants reminiscent of the wide eyed mania and firebrand sermonizing of Father Coughlin and the predatorily steadfast assurance of Oliver Cromwell. He's huge - he's weird - he's brainy in a truly useless way and moronic in a truly dangerous way - he's coming your way and may grab your fries...or soul!!! And...here's what they're saying about ANGRY BOB: "Angry Bob lifted both arms high and flicked all 10 thick fingers wide toward the ceiling. He walked off the stage to thunderous applause." - The New York Observer "Just wanted to say Thank You for being a guest on our show today. The cast had a great time and would love to have you on the show again in the future. You were definitely one of the best that we have ever had on.
