Heart-Felt Pop-Rock Praise Worship 15 MP3 Songs GOSPEL: Contemporary Gospel, POP: with Live-band Production Details: International Worship Leader, Charles Ciepiel, has been writing / playing worship songs for years, which helps explain the maturity embodied within each of these striking, self-penned compositions. It's not only song-writing quality, but the variety of styles so professionally tackled, and the remarkable strength of this man's voice that makes the album so compelling. Punchy and thoroughly infectious songs of pop-rock praise like Eyes On You and Can I Say are combined with the potent, funky blues-rock of Come To You and the unforgettable title-track (actually a serious song written in a time of desperation). Then there's some irresistible reggae grooves on In Your Presence and gorgeously tender moments such as Falling and the whispering Love Song. Better Than Life is a charming duet sung with wife Jenny, preceded by My Everything, a powerful piano-based offering of wholesale commitment in memory of Keith Green - a song Keith would be most proud of (and aptly appearing on the 20th anniversary of his untimely death). And while the rootsy Fascinated meditates on life in Christ - featuring Mike Bickle - a closing acoustic blues bonus is dedicated to long-awaited baby son Josiah David, born in August 2001! Also included is Desire Of The Nations - a new song written for The Call NYC. For more info goto "internationalworship.net"
